WHAT I NEED FROM YOU

01 Full app access this week

02 Available shoot dates in April (2 days)

03 Social account handles (or confirm setup)

04 Activation network: 20-50 people for launch day

05 Direct competitors (ad targeting + GEO)

06 Commitment to 2-3 on-camera videos/week

07 Ad budget comfort level ($5K recommended)

08 10K downloads: launch month or first 3 months?

09 Anything off-limits?

10 Interest in giveaway / influencer program?

FUTURE CAMPAIGN IDEA

"How I Used Tryps" -- a series of 15-30 second case study videos featuring real families and friend groups who used Tryps to organize their trip. User-generated proof that the product works. Scalable content format for months 3+.

Instagram.

@jointryps · The Storefront · Where the brand lives

STRATEGY

Instagram is the first thing someone checks after hearing about Tryps. The profile needs to look like a real brand from day one. 9-post grid pre-loaded before launch. Campaign posters, app mockups, and video. Everything is high production, color graded, Tryps red. No filler.

After launch, Instagram becomes the lifestyle platform. Swipe posts, stories (daily polls, BTS, app tips), and reels repurposed from TikTok. Mid-20s to early 30s professionals live here. This is where brand trust is built.

No competitor has a real Instagram brand. Splitwise: 6.9K followers, minimal effort. Wanderlog: 26K, sparse posting. TripIt: 11K, corporate. Tryps can be the Partiful of group trips on IG from day one.

THE GRID (PRE-LOADED BEFORE MAY 2)

CAMPAIGN POSTER 1	APP MOCKUP	CAMPAIGN POSTER 2
COMMERCIAL ▶ PINNED	CAMPAIGN POSTER 3	APP MOCKUP
CAMPAIGN POSTER 4	APP TUTORIAL ▶	CAMPAIGN POSTER 5

3-WEEK POSTING SCHEDULE

Week 1	9-post grid live before launch. Commercial pinned. Daily stories (polls, BTS, app demos). 1 reel (launch video cut-down). 1 swipe post.
Week 2	2 feed posts (campaign poster + app mockup). 1 reel (Jake demo). 1 swipe post. Daily stories.
Week 3	2 feed posts (social proof + campaign poster). 1 reel (remixed top performer). Daily stories. Metrics report.

TikTok.

@tryps · The Discovery Engine · Where downloads come from

STRATEGY

TikTok is the #1 platform for travel app discovery. 42% of users have made travel purchases from content they saw. The algorithm doesn't care about followers. It cares about the content. A day-one account can reach millions if the video is right.

The format that converts: Jake on camera, demos the AI travel agent in the group chat, reacts to it working. Different hook every time, same demo. This is the Wispr Flow model (500M views in 60 days with the same format repeated).

Paid ads on TikTok amplify the best organic content. $0.50-2.88 CPI. We take whatever video performs best organically and put ad spend behind it. Cheapest path to downloads.

No competitor is on TikTok. Splitwise, TripIt, Lambus -- none of them. Wanderlog benefits from UGC but doesn't post themselves. Tryps can own this entire category.

JAKE DEMO "I put an AI agent in my group chat" ▶

APP TUTORIAL ▶

JAKE DEMO "Planned Tulum in 2 minutes" ▶

COMMERCIAL ▶

JAKE DEMO "The group chat said next month" ▶

3-WEEK POSTING SCHEDULE

Week 1	Daily posting. Launch video (Day 1). Commercial (Day 2). App tutorial (Day 3). Jake demo video (Days 4-7). Every video ends with "link in bio." Paid ads go live Day 1, boosting top performer.
Week 2	3 Jake demo videos. Each one shows a different use case (bachelor party, family reunion, friend group weekend). Paid ads optimizing daily -- shift budget to best performer.
Week 3	2-3 Jake demo videos. 1 remixed version of the top performer from Weeks 1-2 with a new hook. Paid ads continue. Final metrics.

CONTENT FORMAT (EVERY VIDEO)

0-3 SEC Hook. Bold claim or question that stops the scroll.

3-30 SEC Demo. Jake texts in the group chat, AI agent responds, trip gets planned in real time.

30-45 SEC Reaction + CTA. "Link in bio." Download and try it.

PAID ADS STRATEGY

Platform	TikTok Ads Manager
CPI	$0.50-2.88 (cheapest for travel apps)
Creative	Top organic videos repurposed as ads. Not separate ad creative.
Targeting	18-34, travel interests, competitor app users
Optimization	Daily. Shift budget to lowest CPI creative.

X.

Jake Stein's Personal · Founder Presence · Where the conversation happens

STRATEGY

X is not the download driver. TikTok and Apple Search Ads do that. X is where the tech/startup world talks. Jake's personal account is the channel. Not a brand account.

The first 30-60 minutes on X decide everything. Engagement velocity (comments, retweets, quote tweets in the first hour) determines whether the algorithm pushes the post to thousands or millions. That's why we activate 20-50 people to engage immediately on launch day.

Jake replies to EVERY comment for 48 hours. Replies create new reply chains, which is the #1 ranking signal on X. This is non-negotiable. Sean pre-writes all the posts. Jake just has to show up and engage.

THE FEED

Jake Stein
"I put an AI travel agent in my group chat. It planned a trip to Tulum for 8 people in 4 minutes. We launch May 2nd."

Jake Stein
"Why I built Tryps: my friends and I planned a trip to Portugal last year. 47 messages. 3 weeks. Nobody booked anything. So I built an AI that does it for you."

Jake Stein
"Day 3: 2,000 downloads. The group chat agent is resonating. Here's what we're seeing..."
Build-in-public update

3-WEEK POSTING SCHEDULE

Pre-launch	2-3 posts/week. Teaser content: "Building something for group trips. Launching May 2." Behind-the-scenes. Build anticipation.
Week 1	Launch day: hero video post + "Why I Built Tryps" thread. Jake replies to EVERY comment for 48 hours. 1 post/day for the rest of the week. Build-in-public updates.
Week 2	2-3 posts. Milestone updates ("X downloads, Y trips planned"). Share best user reactions. Quote tweet anyone talking about Tryps.
Week 3	2 posts. Milestone update + a genuine reflection on the launch journey. Continue engaging with replies.

LAUNCH DAY PLAN

8:00 AM	Hero video drops on Jake's personal X
8:10 AM	Activate network: text 20-50 people to like, comment, retweet NOW
8-10 AM	Critical window. Jake replies to every single comment.
ALL DAY	Keep replying. Share reactions. Post "Why I Built Tryps" thread in the afternoon.
48 HRS	Jake stays active. Replies to everything. Non-negotiable.

LinkedIn.

Jake Stein · Professional Credibility · Investors, press, and partners

STRATEGY

LinkedIn is not a volume play. 1x per week, quality only. Every post has a purpose: establish Jake as a credible founder building something real. Investors, journalists, and potential partners check LinkedIn before taking a meeting.

Post format: Long-form text with a personal angle. Not promotional. "Here's what I learned," "here's what surprised me," "here's what I built and why." People share founder stories, not product announcements.

Sean writes the posts. Jake reviews and publishes from his personal account.

THE FEED

Jake Stein · Founder, Tryps
"Today we're launching Tryps. An AI travel agent that lives in your group chat. Here's the 18-month journey from idea to the App Store."
Launch day story · Long-form

Jake Stein · Founder, Tryps
"Week 1 numbers: 3,200 downloads. 847 trips planned. 12 countries. Here's what surprised me."
Milestone update · Build-in-public

Jake Stein · Founder, Tryps
"3 things I'd do differently if I launched again. A thread for founders who are about to ship."
Founder reflection · Shareable

3-WEEK POSTING SCHEDULE

Pre-launch	1 post: "We're launching something for group trips on May 2nd. If you've ever been the friend who plans everything, this is for you."
Week 1	Launch day: long-form "Why I Built Tryps" story. End of week: milestone update with real numbers.
Week 2	1 post: what surprised us, what we learned, or a specific user story that resonated.
Week 3	1 post: reflection on the launch, what's next, or a lessons-learned thread. Repost any press coverage.

WHY LINKEDIN MATTERS

Press	Journalists check founders' LinkedIn before writing about them. A strong profile with a launch story = more likely to get covered.
Investors	If Tryps wants to raise, the LinkedIn presence is the first thing VCs see. Build-in-public posts signal traction.
Partnerships	Travel brands, airlines, hotels -- partnership leads come from LinkedIn, not TikTok.
Hiring	If Tryps grows and needs to hire, a visible founder with a launch story attracts talent.
